 Audi TTS Coupé

Vorsprung durch Technik 

Future /

TT

Audi TT Coupé

Audi virtual cockpit. High-tech at the highest level. Premiered in the new Audi TT. The driver determines how the instrument cluster – a high-resolution LCD screen – presents information: either as classic round dials or through futuristic full-screen views. Driver-focused. Innovative. Progressive. Easy to switch via the multifunction steering wheel. For a quick change of context. A clear statement of the technological benchmark in the new Audi TT Coupé.

starts here. /

Stand out. /

A silhouette that sets itself apart. Unequalled. Both in the past and now. The new Audi TT Coupé – yet another milestone in the success story. Its whole appearance is energetic – from the horizontal design of the vehicle's rear to its taut surfaces. Dynamic and athletic. Just like a body defined down to the last detail. Low, wide, stretched. No superfluous lines. Absolute precision, single-mindedly pursuing a clear aim: to impress with powerful aesthetics. The new Audi TT Coupé – one of the most progressive sports cars of our time.

Different / way of thinking. /

A body line that takes up the design of the first Audi TT Coupé – and consistently refines it. A statement. Shaped by pure design. Crisp edges indicate strength of character. Powerfully staged. With striking air inlets. The new three-dimensional design of the Singleframe is integrated stylishly in the horizontal front end. The Audi rings on the bonnet. A position that indicates its sports car genes and immediately sets your pulse racing. Numerous details round off the appearance. Take the tank cap in aluminum design with visible screw thread. Streamlined. Sporty. A tribute to its predecessors. Yet still a completely new creation.

Making / a mark. /

Visibly more expressive. Thanks to the optional Audi Matrix LED headlights in 3D design with characteristic horizontal and vertical elements. Starting at the front and continued visually in the Singleframe and on the bonnet. Futuristic, progressive. Made up of single light emitting diodes, recognizing oncoming traffic and optimizing the illumination of the surrounding area. The rear end causes a stir too. Equipped with LED technology as standard and with a continuous brake light. The light concept of the new Audi TT Coupé – design language that needs no translation.

Focus on the / essentials. /

The interior of the new Audi TT Coupé: remarkably expressive. Because it combines design, sportiness and maximum comfort. Personalise it. By way of coloured interior elements on the centre console, for instance, or seats and vents in turbine design. Convincing and top class. Just like the optional S sport seats – available for the first time in the new Audi TT Coupé. Plus innovative and intuitive air-conditioning controls in the dashboard. All with the aim of concentrating at all times on the most important thing; driving.

Take /
control. /

Remain /
uncompromising. /

Increase torque every moment. Powerful and efficient engines incessantly power the new Audi TT Coupé to maximum performance. State-of-the-art transmission technology guarantees fast gear changes. A complex lightweight engineering concept reduces consumption, increases efficiency and further lowers the center of gravity – thus improving handling. Experience limitless driving enjoyment.

Standards /

redefined. /

The new Audi TT. An icon returns.

Take off.

TTS
Audi TTS Coupé

Unleash instincts.

Four rings on the bonnet. A sign of real sports car genes. And a promise of extraordinary sportiness. Claim it. At the push of a button. Call up pure power. And strap yourself in. 210 kW power the new Audi TTS Coupé from 0 to 100 km/h in 4.7 seconds. Seemingly effortless. Acceleration that is impressive. Thrills. And will take hold of you.

Dashing past.

Ready, steady, go. And then up and away at up to 250 km/h. The 2.0 TFSI engine sets the pace: uncompromisingly sporty. Incredibly powerful. With a maximum torque of 380 Nm. Highest performance even in bends. Controlled by new TT-specific software that regulates the power distribution for the quattro permanent all-wheel drive with rear-oriented Haldex clutch. For even more handling stability. And for dynamic cornering that is reserved for real sports cars.

Feel
power.

Dynamism that will keep you in your seat. Impressive. And comfortable. Thanks to standard S sport seats with moulded head restraint and S emblem. Ideal seat position electrically and pneumatically adjustable. Supporting side bolsters in the seat and backrest provide for excellent lateral support. Even during challenging drives. Allowing you to concentrate on the essentials. The next bend. The next sprint. The sport contour leather steering wheel with S contrasting stitching that feels right in your hands. And all information clearly in sight. Of course, directed to the front. In the innovative Audi virtual cockpit with TTS-specific design and central rev counter.

Attract
attention.

A simple principle. See and be seen. Function and design driven to the max. Allow the intelligent brilliance of the optional Audi Matrix LED headlights to win you over. Unmistakable progressive charisma. The flat front, striking air inlets and the Singleframe in horizontal alignment emphasize the masculine overall appearance. At the rear, horizontal lines dominate. Rounded off by the dual-branch S-typical exhaust system with chrome-plated twin tailpipes. The Audi TTS Coupé – a sports car that causes a stir all around.

Taking charge.

... durch Technik.

The world is constantly changing. Technology is advancing at an ever faster pace. And in the process, more and more opportunities are opening up to you – nowhere more so than in the field of mobility. We are playing an instrumental role in shaping this progress with Vorsprung durch Technik. Striving to provide you with technology that enriches your life. Making sure that we don't just satisfy your expectations of mobility both today and in the future, but continue to surpass them.

*Stick to
the road*

with quattro

Have the road completely under control, thanks to permanent distribution of the drive force to all four wheels. The rear axle is variably controlled via a hydraulic multi-plate clutch. Always as the situation demands, always selective. Optionally with rear emphasis. Experience handling stability, dynamism and agility as never before and combat the effects of over and understeer with quattro. For increased traction and superior propulsive power. Tame any road. And always keep your eyes set on where you're heading. In bends. On straights. Over any surface. For a fascinating experience that sticks to the road – and in your mind.

Intelligent performance

Maximum power. Put to maximum use.

Every movement originates from something. Something that sets it off, an idea. The engine in your Audi can also be traced back to an initial spark of inspiration: higher power with lower fuel consumption. These conflicting aims are united in one revolutionary drive technology: TFSI.

TFSI

Audi TFSI engines attain a particularly high compression rate. The result: outstanding efficiency combined with optimum performance. Substituting supercharging for cubic capacity has the effect of considerably reducing engine size and weight – while performance remains as impressively dynamic as ever. For power delivery that will win you over from the word go.

>>> Audi drive select

Audi drive select lets you adapt the driving characteristics of your Audi to your requirements. At the push of a button. Sportier, more comfortable, more balanced or more economical. It's entirely up to you.

>>> S tronic

The sporty, efficient dual-clutch transmission allows you to switch gears with lightning speed without any perceptible break in propulsive power.

>>> Electromechanical power steering

Through the speed-sensitive steering assistance, the power steering conveys a precise steering feel even at high speeds, helps you to countersteer and makes light work of parking.

>>> Progressive steering

Enhanced driving dynamics due to a more direct steering ratio as well as increased driving comfort in everyday driving conditions due to reduced steering effort. The progressive steering provides you with impressive driving characteristics thanks to the variable power steering assistance based on the steering angle.

>>> Audi magnetic ride*

The regulation of the damping forces based on the driving situation can be set between comfortable and sporty.

>>> quattro**

The permanent all-wheel drive system distributes the drive forces to each individual wheel according to the driving situation for extra traction and dynamic performance.

Dynamics

Dynamics

that will take hold of you.

Get in. Buckle up. Start the engine. Wherever you're heading, enthralling driving dynamics will power you there. For as you know, the world is your oyster once you get behind the wheel of your Audi. You decide the direction. The driving style. The pace. Enjoy the satisfaction of knowing you have plenty in reserve. More than enough to get the very best from every drive.

*Standard for TTS/Optional for TT.

**Standard for TTS.

>>> Car

Control and alter vehicle settings as well as climate control and service functions quickly and easily.

>>> Media

Display the covers of your music collection on all available media sources such as jukebox, inserted SD cards, Audi music interface, CDs or DVDs.

>>> Sport leather steering wheel with multifunction

Keep everything under control. The Audi virtual cockpit and numerous MMI functions can be operated ergonomically from the TT sport leather steering wheel with multifunction fitted as standard.

>>> MMI touch*

Operate the individual components of the Multi Media Interface even more easily using the MMI touch. The touch function integrated in the rotary/push-button can also be controlled by means of handwriting recognition and, like a smartphone, with multi-touch gestures. 2 function keys are all you need for selections in the basic menu and the context-based options. Two toggle switches provide direct access to the phone, navigation/map, media or radio.

>>> Navigation*

With MMI navigation plus with MMI touch you can let yourself be guided to your destinations with even greater ease by the 3D map view and 3-dimensional display of places of interest and landmark buildings.

>>> Phone

Make phone calls safely and easily using the hands-free facility: simply select the number to dial from your contacts in the MMI or enter the number intuitively via the optional MMI touch.

Simplicity**The MMI – intelligent, individual, intuitive.**

Streamlined. Simple. Logical. The world of mobile infotainment completely redefined: the Multi Media Interface (MMI) with your new Audi TT/TTS, everything will be child's play for you.

Audi virtual cockpit

Concentrated.

>>> Classical

High-resolution, razor sharp. The large round instruments for speed and engine speed are emphasized with this display version. The space between is used for additional information.

>>> Progressive

When you switch to the small display of the round instruments, the 12.3-inch colour display is turned into a vast stage. The navigation map, for example, is displayed as a 3D terrain model in full width and impressive brilliance.

>>> Versatile

The innovative, fully digital instrument cluster displays the respective information flexibly and according to requirements. Map representation, radio/media information and much more besides – with clear graphics and intuitive menu structure.

Focused.

Extraordinarily clear. The new instrument cluster. Brilliantly designed, brilliant resolution and representation. Unparalleled innovation and intuitive right from the word go. It can be used to control all functions and MMI services. From onboard computer to navigation. This is pioneering technology. The LCD screen has pride of place in the dashboard. At an optimum viewing height for the driver. There is a choice of two display variants: classical or progressive. Switch conveniently using the TT sport leather steering wheel with multifunction. Simply impressive. Further proof of Vorsprung durch Technik.

The right driving force for every personality.

No matter which Audi engine you choose, they all have high compression ratios, highly efficient combustion and outstanding efficiency. In short, they deliver more power whilst using less fuel and producing fewer emissions.

2.0 TFSI

TFSI

The Audi TFSI engines offer outstanding efficiency and improved performance whilst at the same time retaining their dynamism. The 2.0 TFSI in the new Audi TT, for example, has a power output of 169 kW, enabling the car to accelerate from 0 to 100 km/h in 5.9 seconds and reach a top speed of 250 km/h.

- TT Coupé 2.0 TFSI (169 kW)
- TTS Coupé 2.0 TFSI quattro (210 kW)

Remaining faithful to the sporty line: the S line packages.

The S line packages emphasise the sporty character of your Audi TT. Accentuate the dynamic body line, lend the interior even more expression or give the suspension even sportier definition for enhanced driving dynamics. And make a true athlete of your Audi.

S line exterior package

Front and rear bumpers, side sill trims, side radiator grilles and diffuser insert in distinctive sporty design

Radiator grille in high-gloss black

Diffuser insert painted in platinum grey

Door sill trims with S line logo

S line emblem on the front wings

S line sport package

The S line sport package includes the following equipment items:

S line sport suspension with dynamic spring/damper setting and vehicle lowered by 10 mm

Interior, dashboard and headlining/hood lining in black, contrasting stitching on the seat upholstery, sport leather steering wheel, gear or selector lever gaiter and, if ordered, on the center armrest and the leather package elements

Inlays in matt brushed aluminum

Gear or selector lever knob in perforated black leather

Extended aluminum look in the interior with footrest and pedals in stainless steel

Forged aluminium wheels in 5-arm star design contrasting grey, partly polished, size 9 J x 19 with 245/35 R 19 tyres

S line emblem on the front wings

S sport seats, front

Coloured interior elements in quartz coat silver or anthracite on the side seat trims, striking handle on the centre console as well as inner rings in the air vents

Seat upholstery in Alcantara/leather S sport seat in black or rotor grey, each with S embossing on the front-seat backrests

S line sport contour leather steering wheel with multifunction plus in 3-spoke design flattened at the bottom, in black (steering wheel grips in perforated leather) with S line emblem

Paint finish in all standard/optional equipment colours and additionally the special colour Daytona grey, pearl effect

* For information on when this feature will be available, please contact your Audi partner.

Quality given form. And a brilliant finish. Audi wheels.

To make sure you have peace of mind for every meter of your drive, Audi puts its wheels through an exacting series of specialized test procedures. Hardness tests, for example, aim for maximum stability, while a copper accelerated salt spray test – CASS for short – using acetic acid guarantees the greatest possible corrosion protection. Thanks to these and many other measures, we can ensure that every Audi wheel offers maximum quality – even after scores of kilometers. No matter which of the numerous designs you choose.

Cast aluminium wheels in 5-twin-spoke dynamic design
partly polished, size 8.5 J x 18 with 245/40 R 18 tyres.

Forged aluminium wheels in 5-arm facet design
matt contrasting grey, partly polished,
size 9 J x 19 with 245/35 R 19 tyres.
Available only for TTS Coupé.

Audi Genuine Accessories. As individual as the life you lead.

The Audi TT: more than just a means of travel. It is also an expression of a whole personality. Unique – partly due to Audi Genuine Accessories. Products designed so that you can personalize an Audi according to your own wishes. Benefit from customized solutions with convincing design and functionality. Because alongside numerous testing procedures, creativity in development and high production standards are just as decisive for Audi Genuine Accessories as for the Audi vehicles themselves. Discover which tailor-made ideas Audi Genuine Accessories have ready for your lifestyle. A few highlights are illustrated here – please contact your Audi partner for more information on the complete range.

Cycle fork mount*

Convenient and easy to use. Lockable. Suitable for bicycles with quick-release front wheel. Also available including front wheel mount. Maximum load capacity 17 kg. Can only be used in conjunction with the carrier unit.

Cabriolet care set

For basic care – and a brilliant summer all round. Contains 300 ml active foam cleaner, 300 ml fabric impregnation for hood and textile covers, insect-remover gloves and a sponge. There are numerous other care products also available for your Audi.

Premium textile floor mats and rubber floor mats

Tailor-made for the floor dimensions of the Audi TT. The floor mats are always fixed at the front using the points provided on the floor area of the vehicle. With TT logo.

*Only available for TT Coupé.

The Audi experience

The fascination of Audi can be experienced in many different ways. Audi City Berlin, Audi City London and Audi City Beijing, for example, give you digital access to all models at their actual size and in real time. And of course it is always worth visiting one of the major motor shows. This is where Audi always presents its new models and invites you to take a look at how the future is being shaped with "Vorsprung durch Technik". Anyone interested in seeing how Audi is already putting this into practice will find fascinating insight in the "Vorsprung durch Technik" online special at www.audi.com.my. But a look back can also be rewarding: at the Audi museum mobile in Ingolstadt, history and high-tech go hand in hand. A total of 130 historic exhibits and state-of-the-art forms

of presentation make for a thrilling symbiosis. Plus, Audi driving experience allows you to live the excitement and countless possibilities of current Audi models. Here, pure driving enjoyment is combined with valuable learning effects. This is ensured by a team of specially trained and highly qualified instructors who provide practical tips to help you optimise your driving skills. All this can now also be enjoyed at the recently opened Audi driving experience center in Neuburg, near Ingolstadt. Facilities here include a circuit of up to 3.4 kilometres that features challenging combinations of bends, a 30,000 m² dynamic driving area and an offroad section where Q models can be put through their paces.

Discover the world of Audi.

Responsibility

Living up to our responsibilities is a principle that is firmly anchored in Audi strategy. Alongside commercial success and international competitiveness, our responsibility toward company employees and society as a whole is a key consideration, as is protecting the environment and conserving resources. Audi develops cars that are not only sporty and emotive but also ever more efficient. In the long run, Audi wants its products to allow CO₂-neutral mobility. Seeing to it that production in Audi plants

gradually becomes CO₂-neutral is another aspect of our comprehensive approach. Audi is also committed to society – particularly in the fields of education, technology and social projects. At Audi, sustainability is closely linked with how we see the future: the Audi Urban Future Initiative sees Audi working with international experts to get to the root of future urban challenges and trends in mobility.

Team spirit

Motorsport is a driving force behind the brand. For years Audi has been among the champions in various racing series, for instance the 24 Hours of Le Mans or the DTM German Touring Car Masters. The values that are crucial in many different areas of sport are also central ones for Audi: precision, passion and technology. No coincidence then that Audi has been sponsoring sporting events for

many years. In the world of winter sports, for example, Audi has been the main sponsor of the German Ski Association (DSV) for almost three decades and has also partnered 16 other national alpine teams. In football, we support national and international teams. And Audi is also a partner for the German Olympic Sports Confederation.

Choosing an Audi means choosing a brand that offers more. More individuality. More exclusivity. More fascination.
